

## Broadband in Fethard

Dear Customer

On behalf of Fethard & Killusty Community Council, we have entered into a partnership with Eircom to promote the development of Broadband Services. In order to help Eircom gauge the potential demand for Broadband in Fethard, we have agreed to collect 'Expressions of Interest' from business, residential and community organisation customers.

Broadband Internet is a vital tool for modern businesses and communities. The key features are:

- Download speeds up to 10 times faster than dial-up – and potentially as much as 40 times faster
- Always-on service: no more dial-up and wait for service
- Flat fee per month, starting at €40 including VAT per month and no call charges on top
- You or others in the house/business can make calls and surf the internet at the same time, without the need for a separate phone line

It is important that we establish in advance what demand there would be for broadband in Fethard. We would like you to weigh up the benefits and say whether, should the service become available, you would take it up.

Please indicate your interest below and return this letter to the Community Information Office, Barrack Street, Fethard. Tel: 052 31000.

Thank you

*Joe Kenny*  
Chairman

YES I am interested in using Broadband if available in Fethard	<input type="checkbox"/>	✓
